

# Homebase

Free, easy, and secure employee scheduling, time tracking, payroll, and team communication.

## Scheduling & Time Clock

Turn your Poynt Terminal into a sophisticated time clock - tracking clock-ins, shifts, and breaks.

Prevent early clock-ins and save on payroll each month.

Easily manage shift, trades, covers, and approve time off requests on the go.

Send shift reminders to employees to get them off the couch and into work.

## Payroll & Reporting

Stay on top of labor management anywhere, with manager tools to optimize labor costs.

Easily export records to payroll. Compare labor vs sales in real time through our integration with Poynt.

Download our free mobile apps for employees & managers to stay up to date on the go.

## Team Communication

Message individuals or the whole team quickly through our messaging platform.

Build, edit, and share schedules with the team.

Share notes shift-to-shift through Manager Log.
